

## SAP Business One efficiency

*“Whereas I previously had to spend hours compiling spreadsheets to reflect sales budgets versus actuals, per sales area—fifteen spreadsheets per month plus a consolidated sheet—all I know have to do is literally click a button and the reports are on hand”*

Tienie Jordaan, Financial Director, Coopers Environmental Science.

<b>Industry</b>	Marketer and distributor of environmental science products predominantly to government departments, pest control companies and agricultural co-operative in Southern Africa.
<b>Employees</b>	30 Employees , 12 Users
<b>Reasons for choosing SAP</b>	Instability in previous system, no need for customization outside of the system, SAP Business One met their full set of requirements
<b>Key benefits</b>	Time efficiency, workload reduction, adherence to business rules and practices, approvals & alerts, forecasting with MRP
<b>Customer quotes</b>	<p>“What used to take several days can now be done in a matter of minutes”</p> <p>“As an accountant, it pleases me to know that we will never have to invest in any other product again. SAP Business One is one of the foundations on which we will grow our business into the future”</p> <p>“We now have a single system that satisfies all our requirement. Any small modifications that we needed, such as extra fields or reports, were easily set up for us by the Bluekey staff”</p>
<b>Previous System</b>	Pastel
