

SAP Business One logistics

“Fewer, more capable solutions are the way forward. Less is more! The ability to customise and reduce records ultimately sped up the capturing of data, significantly increasing our reporting capabilities and business intelligence.”

Thomas Sage, Financial Director, Interlogix.

Industry	Transport and logistics of mining equipment
Employees	22 Employees , 16 Users
Reasons for choosing SAP	The decision to go with SAP Business One as the solution to help them reach ultimate efficiency arose from a redundant accounting system. SAP Business One satisfied all their needs and was able to provide them all the industry-specific extras that they needed.
Key benefits	Bad book debt easier to maintain, increase security and control, increased productivity, increased reporting powers, accounting functions performed quicker than in the past.
Customer quotes	<p>“Pastel was accounting only and it was more cost effective to go with SAP Business One compared to Pastel Evolution. One of our competitors chose that route and it cost them more than our entire SAP implementation”</p> <p>“A deciding factor was that we really liked the Bluekey team. They were friendly, professional and informative, which made interaction between our companies easy. We also enjoy that fact that Bluekey, and SAP Business One, was able to do anything we required to satisfy our business needs,”</p>
Previous System	Pastel Partner & Eureka
