

**THE PLASTICS
WAREHOUSE**

The Plastics Warehouse Testimonial

SAP Business One Retail

The Plastics Warehouse SAP Business One implementation included 5 stores, as well as their head office, that was completed in a 6 week cycle. Prior to go-live, each store had a complete stock take, which revealed over 20,000 distinct line items that were cleaned and organised - removing duplicate and unwanted data. Through the integration, automation and simplification of business processes, they experienced a 90% reduction in purchase order processing time.

Industry	Plastic-ware Wholesales/Retailers
Employees	120 Employees
SAP Solution	SAP Business One, Valogix Inventory Planner, Cistech POS
Reasons for choosing SAP	Various subsystems, manual capturing, the need for integration, automation and increased control
Key benefits	Clean master data, alerts & approvals, access to real-time data, automation & control, company-wide standardised approach to inventory planning, fully integrated POS
Customer quotes	<p>“Cistech and SAP Business One provided the seamless integrated system we needed to move our business forward. It covers the selling/point of sale (POS) process, the buying/ordering process, accounting functionality and real time business insight we needed.”</p> <p>“Retail is forever changing and to find a system that can give you quick and accurate information is important. The need for better buying and margin control was also addressed”</p>
Previous System	Pastel
