

## iWay Africa Services (formally AFSAT) Testimonial

### SAP Business One multi-currency & integration

SAP Business one provided the opportunity for a single solution that integrates multiple companies (subsidiaries) in multiple countries through SAP NetWeaver. The multi currency feature that SAP Business One offers allows multiple companies, in multiple countries with multiple currencies to integrate into one system.

<b>Industry</b>	Leader in the telecommunications sector with a presence in Kenya, Tanzania, Uganda
<b>Employees</b>	200 Employees , 41 Users
<b>Reasons for choosing SAP</b>	“We decided to go with SAP because of its reputation, the centralised data solution that they offer with minimal customisation, and the strong local support that is available”
<b>Key benefits</b>	Integration (previously multiple systems), transparency and access to real-time data, reporting capabilities
<b>Customer quotes</b>	“Through the skilled and knowledgeable implementation partner (Bluekey) we are now experiencing stable, profitable business growth that provides us with a 360 degree view of our business”  “There are far more opportunities and options to work with to get a more detailed view, especially on the financials. With all these options one gets a better view and feedback on the financial position of the company. The options of comparing with previous months/years ,or any period as a matter of fact, is very useful”.
